Assignment #5: Maintain SQL Server

Create a maintenance plan to back up AdventureWorks2012

Working alone without step-by-step assistance from the instructor, perform the following tasks:

1. Open SQL Server Management Studio
2. Click on Management -> right click on Maintenance Plans -> select Maintenance Plan Wizard
3. Use the Maintenance Plan Wizard to create a backup plan for AdventureWorks2012
4. Perform a Full backup at 10 pm every Saturday
5. Perform a daily differential backup at 4 am
6. Perform an hourly Transaction Log backup between 8 am and 8 pm
7. Go to SQL Server Agent -> Jobs
8. Find the jobs you just created and generate T-SQL scripts
9. Review and submit the T-SQL scripts to Canvas
